

Q1. Setup a bitcoin wallet. (Multibit is a good choice)

Visit <https://blockchain.info/> and observe the blocks in the blockchain

Answer: I have created Bitcoin wallet in Blockchain website (<https://blockchain.info/>)

Here is some steps of screen shots. (We could create here as well <https://www.bitcoin.com/choose-your-wallet/multibit>)

The screenshot shows a web form titled "Create your Wallet" with a link "or Login" in the top right. Below the title is the instruction "Sign up for a free wallet below". The form contains three input fields: "Email" with the value "rm_pasha@hotmail.com", "New Password" with masked characters "*****", and "Confirm Password" also with masked characters "*****". A green progress bar below the password field indicates the strength is "strong". At the bottom, there is a checked checkbox and the text "I have read and agree to the Terms of Service". A large blue "CONTINUE" button is at the bottom of the form.

Create your Wallet or Login

Sign up for a free wallet below

Email

rm_pasha@hotmail.com

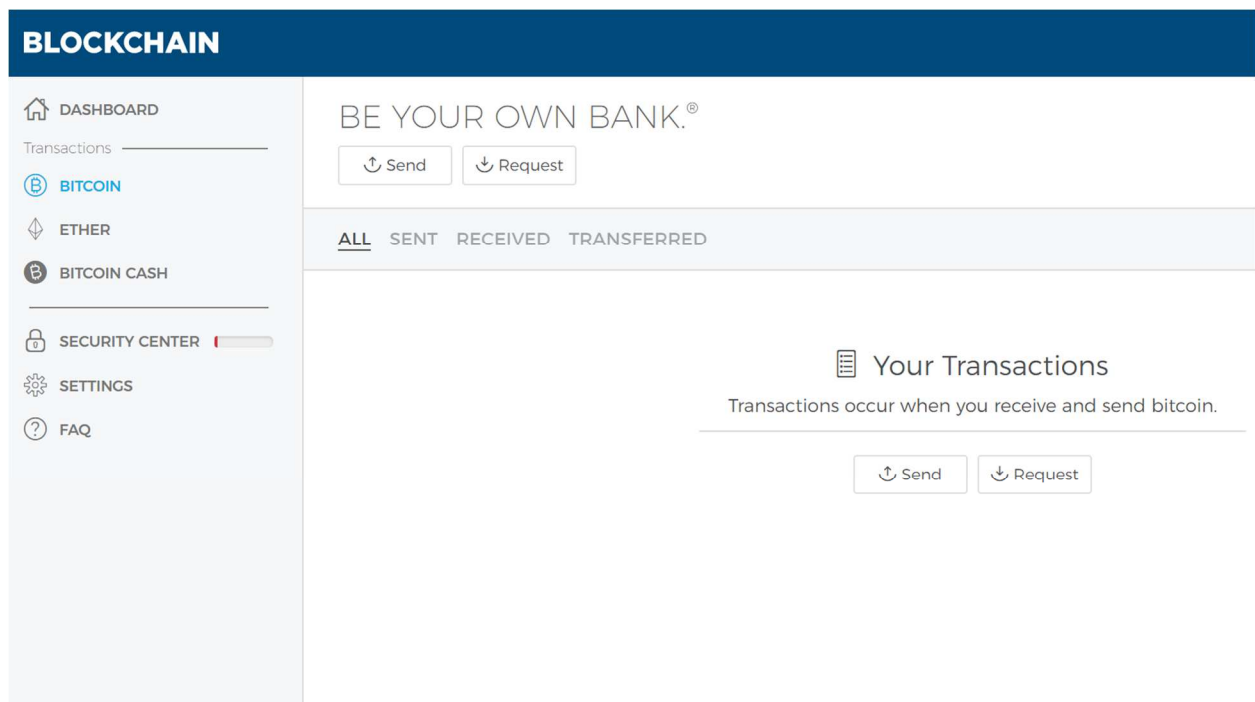

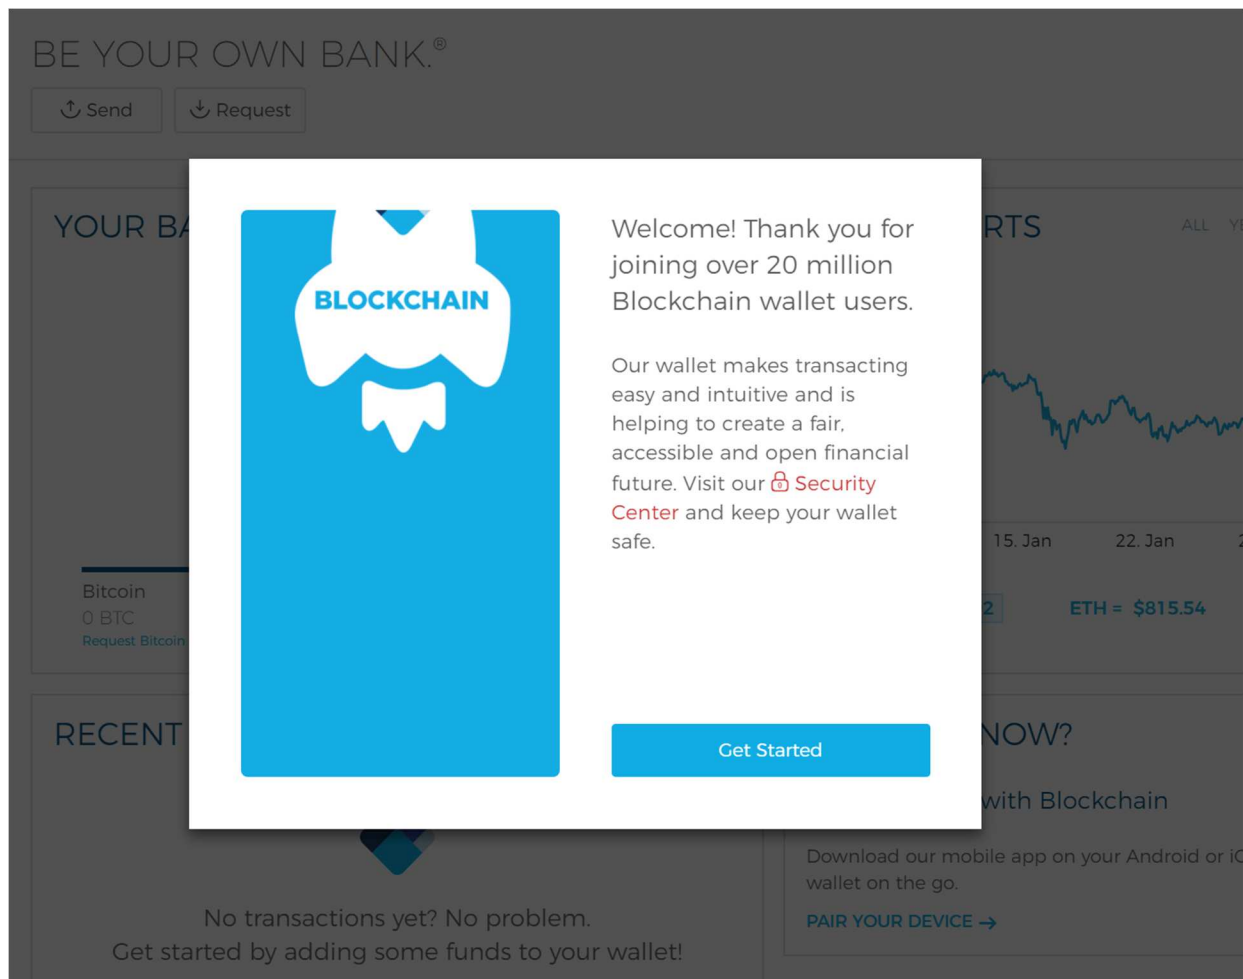

New Password

strong

Confirm Password

☒ I have read and agree to the [Terms of Service](#)

Question 2: Setup a paper wallet. The most popular of which is bitaddress.org. It is open source

Note: Send the screenshot of your paper wallet

Answer: I went <https://bitaddress.org> and click on Paper Wallet. Below is the screen shot of the wallet.
